## WORK EXPERIENCE

---

### License Practical Nurse (LPN)

#### Overlook Medical Center - Emergency Department / Float Pool

📅 September 2022 - current 📍 Summit, NJ

- Responded to an average of 10+ emergency situations per shift, providing immediate nursing interventions that stabilized patients before transfer to critical care.
- Provided direct patient care, including administering subsequent medications, monitoring vital signs and documentation in EMR.
- Prepared examination rooms and provided direct support during procedures, including suturing and wound care, while closely monitoring patient comfort and safety.
- Inserted intravenous lines for up to 15 patients daily and monitored IV sites for signs of complications or infections, promptly addressing issues as necessary.
- Delivered one-on-one emotional support to patients and their families during complex hospital stays by actively listening and providing tailored reassurance, fostering a calming environment.
- Maintained a clean and organized work environment to promote patient safety and infection control

### Patient Care Technician (PCT) / Preceptor

#### Holy Name Medical Center - Emergency Department

📅 April 2017 - September 2022 📍 Teaneck, NJ

- Conducted rounds for over 15 patients per hour, monitoring vital signs and assisting with activities of daily living such as toileting, dressing and mobility.
- Collected and labeled 50+ specimens daily for laboratory analysis, ensuring accurate documentation and handling protocols
- Performed EKGs and used One-Touch technology for over 20 patients per week in the emergency department setting.
- Administered CPR and AED in emergency situations, effectively responding to cardiac arrest for patients in the emergency department.
- Trained emergency staff on the proper application of cervical collars and immobilizing devices and effectively demonstrated the operation of Stryker Stretchers during emergency response training.
